DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ormum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 10-11 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-2 of copending Application No. 09/425,633. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only difference between claim 10 and claim 1 of the Application No. 09/425,633 is broader scope.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

3. Applicant indicated that a terminal disclaimer would be filed in case of allowable subject matter.

Priority

4. An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application(s) in the first sentence of the specification (37 CFR 1.78).

There is a discrepancy in the number of applications claimed as priority applications. The first paragraph of the specification, amended October 30, 2000 does not list application No.

Claim Rejections - 35 USC § 112

- 5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 1-17 and 22-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - A) Claim 1 recites the limitation "the first detection position" in line 11. There is insufficient antecedent basis for this limitation in the claim.
 - B) Claim 6 recites the limitation "the second detection position" in line 3. There is insufficient antecedent basis for this limitation in the claim.
 - C) Claim 10 is indefinite because of the limitation "... a microsphere randomly distributed on a surface of a substrate...".
 - D) Claim 13 recites the limitations "the first detection position" and "the second detection position" in lines 3 and 7-8, respectively. There is insufficient antecedent basis for this limitation in the claim.
 - E) Claim 17 recites the limitation "said enzyme" in line 7. There is insufficient antecedent basis for this limitation in the claim.
 - F) Claim 25 recites the limitation "said discrete sites" in line 1. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 1656

Allowable Subject Matter

7. Claims 1-17 and 22-27 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

8. No references were found teaching or suggesting a kit for nucleic acid sequencing comprising a substrate with a surface comprising discrete sites, a population of microspheres randomly distributed on these sites, extension enzyme, dNTPs, second and third enzymes.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
